To Our Valued Customers,

**Re: Jamaica Tracking System and PSI Certificate with QR Code**

We are pleased to introduce our new Vehicle Status Tracking (VST) System which allows you to verify PSI inspection information including odometer mileage.

It is our greatest concern to provide our customers with a reliable service. We believe our new VST system will prevent any post-inspection fraudulent acts such as odometer tampering and certificate forgery as you can now verify the inspection information simply by entering the chassis number in the VST which is accessible on our website, or reading the QR code that is now printed on the certificate.

**Vehicle Status Tracking System ([www.inspections.jp](http://www.inspections.jp))**

**VST allows you to verify inspection information of all the inspections conducted by ATJ (Jamaica, Kenya, Tanzania and Zambia)**

Yours very truly,

Mamoru Fujie  
Chief Executive Officer  
**Autoterminal Japan Ltd.**
